01.12 ***MARTIN PENT***

03.12 ***ANNE ALUVEE***

MHG NEWS

WEEKLY HIGHLIGHTS

- DSD exam in German was held at MHG on Nov 24. The exam is considered a replacement for the national exam and was taken by three senior students on B2 level.
- **Liis Siigur** (11DP) achieved 13th place in the open Physics Olympiad on Now 21. She participated in the senior age group.
- Our graduate student **Erik Haamer** and **Hannes Remmelgas** (11b) are nominated for the award of the best athlete of 2020.

DECEMBER 1 - E-LEARNING TRAINING DAY

The aim of the training day: all teachers and students practice conducting and participating in live online lessons in the authentic situation.

*grades 3-12 stay at home and their teachers are at school
*grades 1-2 come to school and practice the same thing together with their teachers.
The lessons take place according to the daily schedule except the 5th lesson that can be used for lunch break. All assignments for that lessons are given as an individual work through Stuudium. Grade 3-4 can have the offline lesson some other time as agreed with the homeroom teacher. Grades 1-2 are having their lunch at school at the regular time.

The live online lesson is like a regular lesson - the teacher starts and ends the meeting. Taking part in the online lesson is mandatory for all the students. When a student is not able to participate in the online live lesson for some reason, then please contact your homeroom teacher as soon as possible.
We expect the students to switch on the camera during the online lessons.

MHG NEWS

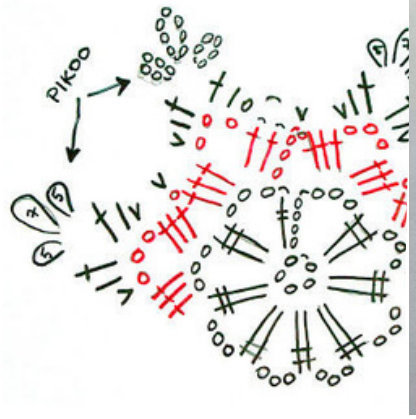
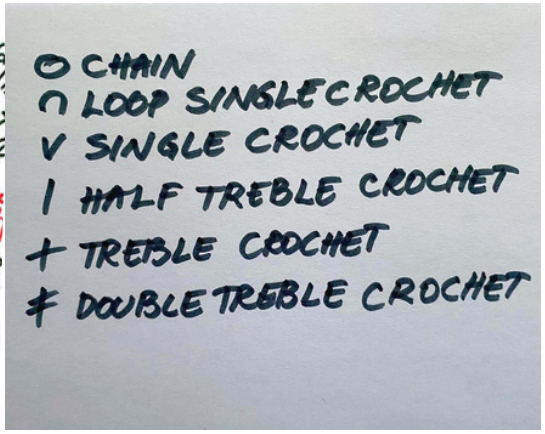
CHRISTMAS AT SCHOOL

1000 small snowflakes

We can't wait for Christmas this year. Some people are waiting it more than a trip to a tropical island somewhere far away. To make this waiting period even slightly easier, we invite you to make some crochet snowflakes for our school's Christmas tree. When each one of us makes/brings one snowflake to school then we would altogether have 1000 snowflakes decourating the tree in the assembly hall. You can also ask your mother, grandmother, sister, classmate or a friend to help you if you don't know how to crochet yourself. The pattern of one possible snowflake can be found below. Remember, the thicker the yarn the bigger the snowflake.





- We are not having big Christmas celebrations at school this year. Instead, all classes plan their own Christmas event or spend a Christmas hour at the assembly hall.
- The annual Christmas choir concert at Pauluse church is cancelled.
- School choirs and folk dance groups continue with their rehearsals after the Christmas holidays.
