## NATIONWIDE TEACHER WARNING STRIKE 10 NOVEMBER FROM 9:00 A.M. TO 10:00 A.M

The school schedule for the morning of 10 November is as follows:

**Basic school students (grades 3-9) come to school for the 3rd lesson.**

For the first lesson (30 minutes), the teachers will give the students independent work, and the assignments are published in the Studium. During the strike, teachers will not work, and no assignments will be given for this period.

**Secondary school students (grades 10-12) come to school for the 1st lesson.**

If the subject teacher has joined the strike, he/she will stop working at 9.00 and not organise activities, assignments, etc. for the students. The students can stay in the classroom, go to the canteen, the library, the hall.

**If the teacher decides not to go on strike, the planned class activities will continue.**

From the 3rd lesson, everyone will continue to study according to the lesson plan.

## LISANNA TÖNNE AND SIMONE NAIRIS REPRESENTED ESTONIA AT THE BSR MODEL EUROPEAN PARLIAMENT IN NORWAY

- 12DP students **Lisanna Tõnne** and **Simone Nairis** represented Estonia at the Model European Parliament of the Baltic Sea region in Norway. As part of the event, young people could experience how the European Parliament's committees work and how important resolutions are prepared. Several important topics were discussed, such as the refugee crisis, the introduction of renewable energy and the strengthening of the defence capabilities of countries in the European Union. Simone was on the Energy Committee, and Lisanna was on the Human Rights Committee. The event also stood out for the representation of various nationalities because, unlike the national Model European Parliaments, young people from ten different countries participated. It highlighted how cultural opinions can be completely different on certain topics and emphasized how important finding compromises in international cooperation and diplomacy is. In addition to the intensive work in the committees, the young people had the opportunity to visit Oslo, the capital of Norway, discover the sights there and listen to a panel discussion that focused on the involvement of young people in social organization. The experience was not only limited to the lessons of European Union politics and diplomacy, but was also an opportunity to create friendships with peers from different countries.

The event also broadened the participants' horizons, showing that the world is full of complex questions that require ingenuity and enthusiasm to answer. In addition, it taught young people an important truth: together we can shape a better future by being part of a common effort that moves our societies forward and helps create a positive impact around the world.

## NOTICED AT HÄRMA

### Attention school family!

Dark autumn has arrived once again, and to ensure that our lovely school family is still visible on the streets, we invite you to **wear a reflector!**

Miina Härma's helping hands are waiting for your excess reflectors but also offer them to those in need. If you have a spare reflector you can't find a use for, you can bring it to **teacher Marje Peedisson** (found mostly in Handicraft class above the sports call), who will hang it on Miina Härma's arm. Alternatively, give them to **your homeroom teacher** who can forward your reflectors.

If you don't have your own reflectors, you have a great opportunity to get one from Miina Härma!

Shine bright and be visible!
