NOTICED AT HÄRMA

- **Sten Tristan Raid** (10a) participated in the BMX cross European cup series in Belgium and reached the finals, where he finished 8th.
- Estonian/Finnish duo Lukas Hans Johan Korsström/**Konrad Pungor** (9a) took first place in the young men's doubles of the U-16 Tallinn Open of the 3rd category of the Tennis Europe tournament, which ended on Saturday in Tondiraba, Tallinn. Konrad earned his second TE U16 doubles title this year. Previously, he had won the tournament in Finland together with the Norwegian Paul Hjorteland in June.
- 9a student **Joel Kaspar Jõepere** won the bronze in the Rotax Max Senior class at the Estonian Championship in karting.
- Our school's student **Kaur Lilo** (4a) participated in the 3D modeling and 3D printing challenge organized by the UT Institute of Technology last academic year, which was entitled "Think sustainably!". You had to design your idea and, if possible, print this solution in 3D. The whole process needed to be captured in a short 2-3 minute video. Participants in the challenge were evaluated in two categories, one for the best design and the other for the best learning journey. The project's innovativeness, creativity, teamwork and, of course, the student's enthusiasm were evaluated. Kaur's 3D Printing Challenge entry won first place in the Best Learning Journey category and MHG was awarded with a brand new BambuLab 3D printer. Many thanks to Kaur! You are all welcome to explore and use the new printer in the Technology class.

KIVA TEAM INFORMATION

The KiVa team welcomes the entire school family!

We are starting a new year again within the framework of the KiVa program at Miina Härma Gümnaasium. **The goal of KiVa is to raise awareness about bullying and to give children knowledge about their role in stopping bullying. Bullying ends when a shared sense of responsibility develops.**

This year we will **focus more consciously** on the **prevention and detection of cyberbullying**. Cyberbullying is a problem that affects many young people. This can have a serious impact on a child's mental health and self-confidence. As the role of digital communication in our lives continues to increase, it is important that all of us – parents, teachers and students alike - are aware of how to spot and prevent cyberbullying. These topics were also discussed at the opinion festival in Paide. It's an educational and engaging listen for students and parents alike.

Opinion Festival 2024 (in Estonian) - "How to stop the vortex of cyberbullying?"
<https://www.youtube.com/watch?v=1tWWdFjOlVY&t=2s> Participants in the discussion:

Mikk Ilves (lawyer at RASK law firm)

Viivika Keskküla (Teacher at Tamme School in Tartu and educator at the Bully-Free School)

Marta Valdman (clinical psychologist)

Alik Säde (web police)

Omar Kõiv (lawyer at RASK law firm)

Natali Moorus (student at Rocca Al Mare School)

Karola Kuldsaar (Kuresaare student of the School of Education)

If you suspect bullying, please be sure to report it to the class teacher or the KiVa team!

WE ARE LOOKING FOR HOSTS FOR STUDENTS OF A GERMAN FRIENDSHIP SCHOOL!

Already on **27 September**, **40 choir singers from Germany** will visit us, and **we are looking for families who can host students aged 12-18**. Youth exchanges with the Germans started already in 1992, which was very rare at that time. The initiator of the meeting was **Elisabeth Heidbrink**, the conductor of Ceciliengymnasium, and **Peeter Põld**, the pastor of the Bielefeld church.

In March, the students of the MHG mixed choir visited the Germans in Bielefeld, where we were welcomed hospitably. We ask for the help of the school family in accommodating the guests in Tartu.

Please fill in this table if you can accommodate someone from 27.09 to 4.10.2024: <https://forms.gle/Jg6NWL1bVi29sz7d7>

This is a great opportunity to make a friend from abroad and also to practice your German or English language skills!
