- On 9 April, the **Hydrogen Competition** took place, where **Uku Nael** (11DP), **Uku Märt Raasik** (11DP), **Andri Türkson** (12b) and **Ralf Jürgenson** (12DP) formed one team. The competition began at TalTech with a theory test on hydrogen energy. After that, the teams had to build an electrolyser that produced hydrogen gas. A rocket had to be built for this hydrogen gas, and the team whose rocket flew the farthest won. Our team received a special prize for the most beautiful rocket.
- From 17-20 April, **Enginaator**, a national engineering competition for secondary school, vocational school, and university students, took place at TalTech. A total of 128 participants from every corner of Estonia took part. From our school, **Uku Nael** (11DP) and **Mart Väljamäe** (11b) (together with two others, team Rapsiõli), **Ralf Jürgenson** and **Andri Türkson** (together with two others, team Shawty diode) and **Uku Märt Raasik** (11DP) (together with two others, team Pakett69) participated. Rapsiõli participated in the IT preliminary round and took 2nd place, and Shawty diode took 1st place in the electronics preliminary round.

Teams Rapsiõli and Shawty diode reached the final, where they had to build a pinball machine. Rapeseed Oil came in 4th place and Shawty Diode came in 3rd place. The top three teams in the finals received cash prizes. The top five teams secured study places at TalTech and each member of their team received a gift bag.

- On 25-27 April, **NBPhO (Nordic and Baltic Physics Olympiad)** took place at TalTech. **Uku Nael** (11DP) and **Sherkhan Torekhanov** (11DP) participated in this competition. **Erik Julius Lindgren** (12b) was also invited, but unfortunately he could not go. You can see the results [HERE](#).
